

Transas - ECDIS

This course is an introduction to Transas Electronic Chart Display and Information System (ECDIS). The course is based on the IMO model course 1.27. The course consists of 17 chapters. Each chapter has one or several movies followed by control questions. When all chapters are completed a certificate will be issued.

This course aims to provide the knowledge needed to use an ECDIS.

Learning objectives and learner outcomes:

By the end of the courses the trainees will be able to:

- Operate ECDIS equipment
- Use the navigational functions of ECDIS
- Select and assess all relevant information and take proper action in the case of a malfunction
- State the potential errors of displayed data and the usual errors of interpretation
- Explain why ECDIS should not be relied upon as the sole trustworthy navigational aid.

Course prerequisites:

The course is open to all deck officers.

Course developer: Transas

System requirements: PC/ Mac with Adobe Flash Player v.9.1 installed, web camera and Internet connection.

Estimated time: 40 hours
